The Anatomy of a High-Performance Hunting Boot

HOFFMAN BOOTS

"Discover Your World"

6" EXPLORER LIGHT

Lightweight, supportive and all day comfort is everything you could ask for in a high performance hiking boot. The Explorer Light combines premium full grain leather, supportive nylon midsoles, and a high-traction Vibram Masai Outsole for excellent traction. Whether it's multiple days back packing through the Bob Marshall Wilderness or a weekend hike, the Explorer Light will perform to your highest expectations. Made in Italy.

Weight 3.5 lbs

#6Expl Lt

Explorer Light Features:

- One-piece vamp construction eliminates seams that can cause discomfort.
- 6½" tall uppers constructed with 2.8 – 3.0 mm amphibious full-grain waterproof leather. Simply the best quality leather available.
- Heavy nylon midsoles provide the support needed on uneven terrain.
- Waterproof Sympatec membrane keeps the moisture out while allowing the boot to breathe.
- Heavy duty rubber rand adds protection and support to the upper.
- Vibram 1212 Masai High-traction Mountain Sole for excellent traction.
- Non-insulated designed for warmer and mild conditions.

Wide Width

(8-13 w/ ½ sizes, 14)

6" INSULATED EXPLORER LIGHT

Same great features as above with the addition of 400 grams of Thinsulate insulation. If you're needing some additional warmth for those early morning adventures, this boot makes an excellent choice.

Weight 3.5 lbs

#6InsExpl Lt

Insulated Explorer Light Features:

- One-piece vamp construction eliminates seams that can cause discomfort.
- 6½" tall uppers constructed with 2.8 – 3.0 mm amphibious full-grain waterproof leather. Simply the best quality leather available.
- Heavy nylon midsoles provide the support needed on uneven terrain.
- Waterproof Sympatec membrane keeps the moisture out while allowing the boot to breathe.
- Heavy duty rubber rand adds protection and support to the upper.
- Vibram Bristol Artic Grip sole for excellent traction.
- Insulated w/ 400 gram Thinsulate for cooler conditions.
- Same sizes as Explorer above.

I have been a hunting guide in the Frank Church Wilderness for seven years. From biking endless miles downhill to being in a saddle for hours, the Hoffman 8" Explorer Boot is hands down the best overall boot I have found for my adventures.

For long hiking trips, the uninsulated boots are lightweight, comfortable and stable, and can get you through some really wet and adverse conditions. Perfect for September and October hunting. The break-in time is quick and the waterproofing on this boot is completely dry.

Levi

8" EXPLORER

The Hoffman Explorer is an uninsulated, lightweight mountaineering boot designed to offer unsurpassed support, ankle stability and comfort. The Explorer's 8" one-piece 2.8-3.0 mm leather uppers, combined with a durable rubber rand, protects your feet from thick underbrush and rocky terrain. A breathable waterproof Sympatec membrane keeps you dry and comfortable when Mother Nature doesn't cooperate. Heavy duty full-length nylon insoles provide all day stability and support without giving up flexibility. Made in Italy.

Explorer Features:

8" INSULATED 400 EXPLORER

When the temperature drops and the weather turns, you will be glad you invested in a pair of our Insulated Explorer boots. Built with 400 grams of Thinsulate and a heat-regulating Windtherm lining, our Insulated Explorer will help keep you warm and dry on your late season adventure. The Vibram Arctic Grip sole, which is the most advanced weather-gripping system Vibram has ever created, provides excellent durability and traction in cold weather conditions. Made in Italy.

Insulated Explorer Features:

- One-piece vamp construction eliminates seams that can cause discomfort.
- 8" tall uppers constructed with 2.8 – 3.0 mm amphibious full-grain waterproof leather. Simply the best quality leather available.
- Heavy nylon midsoles provide the support needed on uneven terrain.

10" HUNTER

A taller version of the popular 8" Explorer model, our 10" Hunter adds even more support. Great for those late season hunts, the Hunter features a high cuff which provides total protection and support. Other features include premium full grain Amphibian leather uppers with one piece vamp construction which eliminates most seams. The 5 1/2 mm nylon midsoles add solid support and lateral stability yet flexible enough when climbing to prevent heel slippage and heel bite. A reinforced rubber rand guards against abrasion to the upper and a Vibram outsole provides excellent traction and stability. The Sympatex® Bootie helps keep you dry and is 100% waterproof and windproof, and at the same time breathable. The hydrophilic components of the membrane absorb body dampness and expel it outwards. The result is total comfort, with exceptional stability and performance.

Weight 5 lbs

Three years ago, I renewed my quest for the ultimate hunting boot and tried on over a dozen pairs from various manufacturers. Ultimately, I chose a pair of Hoffman Explorers. Even though I 100% know better, I wore them essentially out of the box and into the Idaho wilderness for a backpack spring bear hunt. Five days and no blisters later, I emerged highly impressed.

I give these an 11/10. They are my favorite boot and the best I have ever worn. Thank you, Hoffman.

10" INSULATED 800 HUNTER

The new 10" Insulated Hunter boot is now available. The Insulated Hunter was built to handle cold, late season temperatures that often keep most hunters home. This is the warmest of all our mountaineering boots featuring a lofty 800 grams of Thinsulate. A waterproof Sympatec bootie is added to keep you dry in the most demanding conditions. The Vibram Ice Grip sole adds additional contact surface for more grip and the encapsulated foam in the heel absorbs heel strike shock for all day comfort. Our new 800 gram Insulated Hunter is ideal boot for late season hunts in cold, wet weather.

HOFFMAN KODIAK

The Hoffman Kodiak is our newest design that combines lightweight, function and durability to this new unique design. The 8" Kodiak features our Armor Coating over the leather in the vamp area that provides extra protection to the upper where most wear occurs. A breathable anti-cut fabric upper helps the boot vent and lessens the weight of the boot. For traction, a Vibram Du Roche outsole is a terrific all around sole for multiple surface types and a dual dentistry midsole helps provide added comfort. A waterproof breathable membrane helps keep you dry no matter what the weather is doing. A 4- 5mm nylon midsole allows the boot to flex but is still rigid enough to provide adequate stability and support on side hills.

Kodiak Features:

- Armor Coating around vamp area
- Waterproof membrane added
- Fabric upper reduces weight
- Vibram Du Roche Outsole
- 4-5 mm Nylon midsole for medium flex
- Sizes 7-12 w/ ½ Sizes, 13

#V Kodiak (*Vibram Sole*)

HOFFMAN 10" GRIZZLY

The Hoffman Grizzly is a tough 10" boot with some unique characteristics. The Grizzly features a leather upper with an anti-abrasion PU carbon film finish over the leather. This added layer helps protect the upper and provides extended life to the boot. A waterproof membrane is added to help keep you dry and supportive 6 mm nylon midsole adds stability to the boot for those looking for a more stable platform. The triple seamed collar is leather on the inside and out and adds additional comfort to the boot along with a breathable lining. The heavy duty lacing system includes a lock lace hardware to keep your laces snug. A wedge midsole composed of different densities of EVA layers with PU and shock absorbing stabilizer is added along with the Vibram New Winkle sole. The Grizzly is a stout boot for those looking for a heavy duty hunting / work boot.

#V Grizzly (Vibram Sole)

Grizzly Features:

- Carbon PU finish to help protect the upper
- 10" Upper for extended protection
- 6mm Nylon Midsole for a stiffer platform
- Waterproof membrane added
- Vibram New Winkle Outsole
- Sizes 7-12 w/ ½ Sizes, 13

6" SCOUT

There is a fine balance to making a lighter weight boot that still offers the quality features needed to perform in the outdoors. With the New Hoffman Scout, we believe we have done just that. The Scout weighs nearly ½ pound lighter than the 6" Explorer. With a more flexible dual density sole with PU inserts that provide enhanced stability, the Scout offers more flex while walking providing you with comfort without sacrificing stability. The Scout is the perfect boot for early season or anytime a less rigid boot is needed.

Scout Features:

- Reinforced, double-stitched tongue w/ ergonomic design
- Full rand for increased protection.
- 4-5mm Nylon Midsole for easier flex
- 100% Waterproof Sympatec™ Membrane
- Dual Density Sole w/ PU Inserts for stability
- Non-insulated
- Vibram™ New Winkler™ outsole
- 2.8-3.0 mm full grain leather upper
- 3.14 lbs. a pair (size 9)

• Handcrafted in Italy

#Scout

8" BORAH

You asked for it so we built it. A lighter weight version of the iconic 8" Explorer with a more flexible platform for those looking for a more flexible boot. The 8" Borah has several great features that make it an outstanding choice... a waterproof Sympatec membrane, full length rubber rand and a padded leather cuff. Still focusing on quality and longevity, a premium 2.8-3.0 mm full-grain leather upper with a nubuk finish and a water-repellent treatment was added. The Vibram New Winkler dual density sole with PU insert provides enhanced stability and traction with every step. The Borah is the perfect choice if you're looking for a stable outdoor boot with more flexibility than our traditional Explorer series.

Borah Features:

- Full rand for increased protection.
- 4-5mm Nylon Midsole for easier flex
- 100% Waterproof Sympatec™ Membrane
- Dual Density New Winkler Sole w/ PU Inserts for stability
- Non-insulated
- 2.8-3.0 mm full grain leather upper
- 4.3 lbs. a pair (size 9)
- Handcrafted in Italy

#Borah

6" SUMMIT

A mid height mountain boot ideal for work, backpacking or early season hunts where the terrain is both extreme and unforgiving. Hoffman's contour cushioned insole features our Dual Density PU mid-sole, offering greater stability, comfort and durability. A SympaTex waterproof bootie is added to provide waterproof protection for those unexpected wet days. A 5 1/2 MM Nylon mid-sole provides excellent lateral support while providing the flex

#Summit

needed while making an ascent. The NEW long-wearing Vibram Dolent sole features an alpine tread design with high edging stability for optimally precise footing and self-cleaning tread profile. A protective rubber rand is added to this excellent boot to help protect the leather upper from abrasion. The Summit is an excellent choice for early season hunters, backpacking and also as a work boot for light line work and other task. **MADE IN ITALY.**

Summit Features:

- 100% Waterproof Sympatex Membrane
- Dual density PU Cushion Insole
- Long-Wearing Vibram Dolent™ Outsole.
- 5 1/2 MM Nylon Mid-Sole for Support .
- Non-Insulated 3.8 lbs/Pair (Size 9)
- Made in Italy
- Sizes 7-13 w/ Half Sizes, 14
- Weight: 3.6 lbs

8" CREW BOSS

Our Hoffman Crew Boss blends the lightweight and supportive benefits of our mountaineering boots with the fire-resistant features used for NFPA standard. This lace to toe style boots was designed for forestry work and fire cleanup and feature Vibram's heat-resistant, anti-slip sole which give you greater footholds on all types of surfaces. Our one piece leather upper is designed with a fire resistant, 2.8 mm leather and is stitched with flame-resistant

Kevlar thread. Our full-length 5 1/2 mm tapered nylon midsole provides excellent stability while allowing the boot to bend while ascending.

The inner lining is designed with a multi-layer Arona fabric that provides high breathability and comfort. Cushioned contour insoles and fire retardant laces complete this wonderful boot.

Note: Although this boot has many of the same characteristics of a NFPA approved boot, it has not been certified for wildland fire fighting use. Manufactured in Italy.

#Crewboss

Crew Boss Features:

- Lace-to-Toe Design for Outstanding Support
- Vibram's High Traction, Flame Proof Sole
- Superb cushioning and comfort without the weight.
- Kevlar Stitching in Upper
- Fire Resistant Full Grain 8" Leather Uppers
- Sizes M: 7-12 w/ whole sizes, 13, 14
- Wides: 8-12 w/ wholes sizes, 13

HOFFMAN MID-FLEX

The Hoffman Mid-flex was built to be the “do everything” boot. From your “go to” work boots during the week to your weekend chores, the Mid-Flex offers exceptional comfort and durability for just about everything imaginable. The all leather 2.8-3.0 mill leather upper provides stability and durability to the boot. A 4-5 mm nylon midsole is used to provide added flex yet still providing you with lateral stability and support. The Vibram FAR outsole is an excellent all around sole. Durable enough to handle the toughest terrains while providing great tractions on uneven surfaces. You never know what surprise Mother Nature may have in store so we added a waterproof Sympatec membrane to be sure your feet stay dry. For extra durability, a full rubber rand helps protect the upper. If you’re looking for a boot that is durable enough for everyday use yet can be used for weekend adventures also, you found it. NOTE: For those needing a safety toe boot, we also offer this boot with a composite toe.

Mid-Flex Features:

- Full rand for increased protection.
- 4-5mm Nylon Midsole for easier flex
- 100% Waterproof Sympatec™ Membrane
- Vibram FAR 1700 Sole w/ PU Inserts
- Non-insulated
- Available in Composite Toe upon request
- 4.5 lbs. a pair (size 9)
- Handcrafted in Italy

#Mid-Flex

HOFFMAN TRAVERSE

For fall 2024, Hoffman's is introducing a lightweight boot with Cordura sides for breathability and lighter weight. The lower leather unit features our unique Armor Coating to help protect the most vulnerable area of the boot around the foot.

The Traverse was built for warm days and made to vent heat away from the foot. A sturdy Vibram sole is used for high gripping traction and longevity. We've added a waterproof membrane for protection against unforeseen weather. A lighter weight 3-4 iron mid-sole was used to allow the boot to flex more easily for those looking for a boot with greater flexibility. Sturdy, no-nonsense hardware was used to add longevity to the boot. The Traverse

is a great option if flexibility with less support and stiffness is needed.

Hoffman Traverse Features:

- Leather / Cordura Upper
- Waterproof Membrane added
- High Traction Vibram Outsole
- Armor Coating around vamp area
- Sturdy Hardware and laces
- Sizes: M: 7-12 w/ ½ size, 13

#Traverse

8" AND 10" ARMOR PRO

Created to withstand the rocky terrains of the Dolomite region in Northern Italy, Hoffman's Armor Pro features a stark (bed-liner- type) material that is bonded directly to the leather upper. This flexible, abrasive resistant material can withstand jagged rocks and other objects better than regular leather uppers. Featuring a lightweight one-piece Vibram outsole, the Armor Pro is built for the most demanding outdoor conditions. This boot is a great choice not only for challenging or rigorous hunting conditions, but is also a great work boot. Available now in both 8" and 10" height. **MADE IN ITALY.**

These are the single toughest boots I have purchased in my life. From day one I started wearing these boots 12+hrs daily. No break in period AT ALL - it was as if they were already fit exactly for my foot, incredible! It doesn't matter if I'm in a trench shoveling or operating heavy equipment all day these boots are comfortable no matter what! I can run up the mountains in these things. These things are indestructible, waterproof, comfortable, supportive, and great traction. I will definitely be buying another pair. Hoffman boots, you have made a lifetime customer

Armor Pro Features:

- One-piece vamp construction eliminates seams that can cause discomfort.
- 8" and 10" tall uppers constructed with 2.8mm full-grain leather.
- Stark rubber coating on leather for highly abrasive environments.
- Heavy nylon midsoles provide the support needed on uneven terrain.
- Waterproof Sympatec membrane and rubber coating keeps the moisture out.
- Vibram FAR slip resistant high-traction sole.
- Non-insulated for cool to warm conditions.

8" INSULATED 400 ARMOR PRO

Because of the popularity of the 8" Armor Pro, Hoffman's has decided to add a new insulated version of this well designed boot. The Insulated Armor Pro features 400 grams of Thinsulate to help keep you warm when the weather turns foul. Its Armor coating makes this one of the toughest boots we have had in our line and has become an instant favorite for those in harsh conditions. This boot has all of the same great features found in the non-insulated version but with more warmth added. **MADE IN ITALY.**

Insulated Armor Pro Features:

- One-piece vamp construction eliminates seams that can cause discomfort.
- 8" tall uppers constructed with 2.8mm full-grain leather.
- 400 Gram Thinsulate.
- Stark rubber coating on leather for highly abrasive environments.
- Heavy nylon midsoles provide the support needed on uneven terrain.
- Waterproof Sympatec membrane and rubber coating keeps the moisture out.
- Vibram FAR slip resistant high-traction sole.
- Weight: 4.6 lbs

6" RHINO

Hoffman's 6" Rhino hiker is one of the toughest hikers we have developed. Based off the success of the Armor Pro, this rugged 6 inch hiker style boot is coated in "stark" material (similar to truck bed lining) making it more cut resistant, adding another level of waterproofing, and extending the overall life of the boot. The one piece vamp design eliminates stitching around the foot area that will prolong the life of the boot and the additional waterproof Sympatec membrane helps to keep you dry. **MADE IN ITALY.**

Rhino Vibram Features:

- Medium Width:
(7-12 w/ ½ sizes, 13, 14)
- Wide Width: (8-12 w/ ½ sizes, 13)

Weight: 4 lbs

WOMEN'S NON-INSULATED EXPLORER

Made for early season activities, our New 7" uninsulated woman's Explorer provides the same great fit and support for those looking for a non-insulated boot. Made on our ladies last, our woman's Explorers offer a fantastic fit that other boots of this type do not. One piece uppers, waterproof bootie and a high traction Vibram sole complete this wonderful boot.

Women's Non-Insulated Explorer Features:

- Boot Made on a Woman's Last
- Non-Insulated for Early Season Use
- Vibram Masai High Traction Sole
- Waterproof Sympatec Membrane
- One Piece Leather Upper
- Sizes: 6-10 w/ Half Sizes
- Weight: 3.6 lbs
- Sizes: M 6-10 w/ Half Sizes

#Wom Non-Ins Expl

WOMEN'S 400 EXPLORER

Made especially for woman looking for a top quality hunting boot, our new Woman's 400 Explorer has all the features as our men's boots. Built with heat regulating Wind-therm lining and 400 grams of Thinsulate, our Insulated Explorer will help keep you warm and dry on your hunt. The Vibram Artic Grip sole adds extra grip in regular terrain and snow/icy conditions, and a waterproof Sympatec liner that helps keep you dry all day. For your fall hunts, the Woman's Insulated Explorer is a great choice. **MADE IN ITALY.**

Women's 400 Explorer Features:

- Boot Made on a Woman's Last
- Insulated w/ 400 Gram Thinsulate
- Vibram Artic Grip Sole for High Traction

7" WOMAN'S ARMOR PRO

Ladies, we have not forgot about you. Finding a durable work boot in woman's sizes is nearly impossible. . . . until now. The Armor Pro boot has been one of the best boots Hoffman's has offered to our customers. The durability and performance of this boot has been second to none. This boots has all the same durable features that our regular Armor Pro has, just built for the ladies.

Women's Armor Pro Features:

- Available in Woman's Sizes
- One piece vamp construction eliminates seams that can cause discomfort.
- Stark rubber Coating for highly abrasive environments
- Waterproof Sympatec Membrane added
- Woman's Sizes: 6-10

#Wom Arm Vib (*Vibram Sole*)

WOMEN'S REBEL

The Woman's Rebel is the newest addition to our ladies line-up. This boot has all the bells and whistles that make up a great summertime boot. Supportive midsole, high traction Vibram sole, waterproof bootie and a durable upper make this boot a must.

Women's Rebel Features:

- Ladies lasted boot
- Waterproof Sympatec Membrane
- Durable Vibram Outsole
- Lightweight upper
- Sizes 6-10 w/ ½ Sizes

#Rebel

MEINDL CRUISER

Needing a 6" boot for everyday use, back packing or work with outstanding ankle support and stability, our 6" Cruiser by Meindl fits the bill. The German made Meindl boot has a very supportive upper that provides excellent ankle support and stability. A waterproof Gore-Tex lining helps insure dryness and a removable insole adds cushion to your every step. A durable Vibram style lug sole provides traction and longtime wear. Easy to break in, the 6 Inch Meindl Cruiser Boot is ideal for those looking for a comfortable walking/work boot with a lot of lateral support.

Meindl Cruiser Features:

- One Piece Leather Upper
- Gore-Tex Water Resistant Liner
- Added Rubber Rand for Additional Protection
- Non-Insulated
- Sizes 7-12 w/ half sizes, 13
- Weight: 4.1 lbs

#VCruiser

10" MEINDL LOGGER

A serious boot for rugged outdoor use. The 10" Meindl Logger Boot is made with a one piece vamp of 3 mm top grain leather coupled with a supportive nylon mid-soles for excellent all around support. This non-insulated waterproof boot features a breathable Gore-Tex membrane that helps keep you dry and a thick cushion insole adds additional comfort to every step. While developing this boot with Meindl, Hoffman's chose to use a heavier grain leather than Meindl's standard boots for additional wear and also added an extra midsole, which allows the boot to be rebuilt... something you won't find with standard Meindl products.

Sure to become your favorite outdoor boot due to its awesome lateral support and stability, try a pair of our Meindl Logger Ground boots and see why we are excited to offer this line of fantastic boots.

Meindl Logger Features:

- One Piece Leather Upper
- Gore-Tex Water Resistant Liner
- Added Rubber Rand for Additional Protection
- Non-Insulated
- Sizes 6-12 w/ half sizes, 13
- Weight: 4.75 lbs

#VLOG

10" INSULATED MEINDL KOOTENAI

The 10" Insulated Meindl Kootenai ground boot adds warmth and support to every step. For those of you who have not worn a mountaineering style boot, ankle and leg support are extraordinary. This boot features 400 grams of thinsulate insulation for warmth and a Vibram style lug sole which offers good durability and sure grip traction. Heavy duty one piece leather uppers, cushion insoles, waterproof Gore-tex membrane and solid hardware complete this wonderful boot.

Meindl Kootenai Features:

- One Piece Leather Upper
- Gore-Tex Water Resistant Liner
- Added Rubber Rand for Additional Protection
- Insulated w/ 400 Gram Thinsulate
- Sizes 7-12 w/ half sizes, 13
- Weight: 4.9 lbs

THE MAKING OF A LEGENDARY USA PAC BOOT

For over 40 years, Hoffman Boots has been manufacturing the finest winter pac boots available in our family-owned factory in Kellogg, Idaho. All of our leather comes from American factories that provides American jobs—something we know you will appreciate. From hunting cabins to logging camps, providing the best quality winter footwear at Hoffman's affordable pricing has built our reputation that makes our name synonymous with quality.

**Heavy 7–7½ ounce
oil-tanned USA leather**

**USA-built
contour
leather upper
design to fit
the curvature of
the leg.**

**High-traction
outsoles for
support and stability**

**200 or 400 gram
Thinsulate/wool liner or
9mm felt liner**

**Solid brass hardware for
excellent wear**

**Triple stitched and glued
on uppers for maximum
strength and sealing**

**Rebuildable, hand-laid
rubber bottoms for
maximum strength**

**Steel shanks for
solid arch support**

DOUBLE INSULATED GUIDE

Hoffman's has revamped the Guide boot, making this pac boot a hunter's necessity. We have added a layer of 200 gram Thinsulate into the walls of the rubber to provide additional warmth. Next, a 9mm felt insole has been inserted into the foot bed to limit the amount of cold coming through the bottom of the boot. An additional 200 gram or optional 400 gram Thinsulate liner woven with a 3mm felt and Cambrelle complete the insulation in the Guide. A stout and supportive upper made in Idaho with premium 7 ½ ounce oil-tanned leather and solid brass hardware complete this wonderful boot. The Guide is available in 10", 12" and 14" heights.

Guide Features:

- 10", 12" and 14" heights
- Industrial grade rubber bottom.
- Designed for cooler conditions.
- Thinsulate/Wool/Cambrelle liner.
- Steel shank for support
- Additional insulation for added warmth.
- Sizes 6–15 (whole sizes only).

#Guide

HOFFMAN DOUBLE-INSULATED MOUNTAINEER

The Hoffman Double-Insulated Mountaineer is the warmest pac boot we offer. The rubber shell features 200 grams of Thinsulate in the walls of the rubber, plus an additional 9mm felt insole imbedded in the foot-bed to help prevent cold from penetrating the bottom. A removable 9mm felt liner with a moisture-absorbing polypropylene backing is added to complete the insulation in this boot. We've added a hand-crafted 7½ oz. leather upper made right here in Idaho to the rubber shell that conforms to your leg. Solid brass hardware and no-nonsense lacing completes this boot. The Hoffman Double Insulated Mountaineer is an excellent choice for the outdoorsman needing a warmer boot during periods of cold temperatures or low activity.

Mountaineer Features:

- 10", 12" and 14" heights
- Designed for colder conditions.
- 9MM wool felt liner w/ Polypropylene.
- Rebuildable bottom for extended wear.
- Additional insulation for added warmth.
- Steel shank for support.
- Sizes 6-15 (whole sizes only)

#Mount

COWBOY PAC

The Hoffman Cowboy Pac, with its narrower toe design, is built for use in a stirrup when needed. This rugged boot features your choice of two soles: our tractor tread outsole (which is a less aggressive at tracking debris) or the high-traction claw lug sole (with an aggressive outsole that offers outstanding grip on multiple terrains). While other companies have lessened the quality of their boots or import their uppers, Hoffman's handmakes every leather upper in our Kellogg, Idaho facility using only the finest 7-7 ½ oz. premium leather. Other features include a steel shank for arch support, a spur shelf to hold your spurs in place, triple-stitched uppers, and rebuildable hand-laid rubber bottoms. It is insulated with a 9mm felt liner for maximum warmth or a 400 gram Thinsulate liner, which may be substituted.

Cowboy Pac Features:

- 10", 12", 14" heights.
- Heavy 7-7 ½ ounce oil-tanned American leather.
- American-built two-tone leather upper design to fit the curvature of the leg.
- Standard 9mm felt liner.
- Solid brass hardware for excellent wear.
- Rebuildable, hand laid rubber bottoms for maximum strength.
- Steel shanks for solid arch support.
- Two sole choices to meet your preferences.
- Triple stitched and glued on uppers for maximum strength and sealing.
- Sizes 7-14 (whole sizes only)

#Cowboy Claw

#Cowboy Tractor

HOFFMAN FELT VOYAGER

Our new Hoffman Felt Voyager is made with our exclusive “pro-series” hand-laid rubber that will outlast normal pac boot bottoms. This combination of rubber and interlining layers of reinforced material creates a durable bottom that is second to none. For traction, we offer our Claw-Lug sole with stabilizing lugs for superior traction. Our Hoffman Voyager features our exclusive non-twisting arch guard and reinforced toe cap for longtime wear. We attach a heavy 7½ oz. oil-tanned leather upper made here in Idaho that is triple-stitched, glued and sealed to give you the most water-resistant felt pac available. The Hoffman Felt Voyager makes an excellent choice for use in cold conditions.

Voyager Features:

- 10", 12" and 14" heights.
- Removable 9mm wool/felt liner.
- 7 ½ oz. oil-tanned leather uppers.
- Rebuildable for years of service.
- For colder winter conditions.
- Sizes 6-14 (whole sizes only)

OUTDOORMAN

An excellent choice for flat land use in muddy, wet conditions, the Outdoorsman provides good traction without collecting as much debris like other soles. A heavy duty 7-7½ oz leather upper is added to a rebuildable, scent-free rubber bottom featuring a tractor tread outsole. The Outdoorsman fits easily into standard stirrups, making it a popular choice among ranchers and bird hunters alike. If you work outdoors, the Outdoorsman is a lightweight, insulated boot you'll enjoy wearing no matter what the weather does.

Outdoorsman Features:

- 10", 12", & 14" heights
- Designed for mild conditions.
- Thinsulate/Wool/Cambrelle liner.
- Tire cleat sole for less debris collecting.
- Steel shank for support.
- Sizes 7-15 (whole sizes only)

(Predator Extreme)

For professional use, our industrial grade Hoffman Pro-Series Pacs are our best selling boots—and for good reason. Less bulky than traditional felt pacs, the Pro-Series is an ideal boot for a wide variety of outdoor activities, weather conditions and terrain. While other companies seem to be lessening the quality in their rubber bottoms, Hoffman's Pro Series waterproof, pure rubber bottom is simply the toughest on the market. The crack-resistant rubber features a steel shank for arch support and a rip-stop material built into the walls of the rubber for unbelievable toughness. Four sole choices are available depending on the conditions you are in.

Pro Series Features:

- Industrial grade rubber bottom
- Designed for mild conditions
- Rebuildable for years of service
- 10", 12" and 14" heights
- Sizes 6–14 (whole sizes only)

HOFFMAN OUTBACK

The Outback has all the features of our Hoffman Pro Series Pacs plus the addition of our ankle-loc stabilizer straps for added ankle support. Combined with Hoffman's contour fitted leather uppers, the Outback provides the most support found in any pac boot on the market today. This boot is an excellent choice for hunting steep terrain or anytime that optimal support and traction is needed. Lace 'em up tight and you'll be amazed at the extra ankle support the Outback will give you.

Outback Features:

- 10", 12" and 14" height
- Industrial grade rubber bottom.
- Designed for mild conditions.
- Thinsulate/Wool/Cambrelle liner.
- Steel shank for support.
- Sizes 6–14 (whole sizes only)

9" CAMPER

Tired of lacing your boots up? The insulated Hoffman Camper is a pull-on style pac boot with a Velcro closure that fits like a lace-up. It allows similar fit, comfort, and warmth as our lace-up boots and is easy to get on and off. Perfect for errands, shoveling snow or around camp, the Camper boot features a removable 400 gram Thinsulate and wool felt liner, which provides warmth without the bulk of conventional pac boots. The Camper is available in either a traditional tractor tread sole or a more aggressive air grip sole. The Camper boot is also rebuildable for years of service. You'll enjoy the comfort and ease of the Camper, no matter your need.

Camper Features:

- Designed for mild conditions
- 400 gram Thinsulate/Wool/Cambrelle liner
- Rebuildable bottom for extended wear
- Steel shank for support
- Velcro closure on upper
- Sizes 7-14 (whole sizes only)

DARN TOUGH SOCK

Made in U.S.A. (w/Lifetime Warranty)

"As the maker and marketer of Darn Tough Socks, we are unique. In an era of outsourcing and corporate take-overs, we are still true to our roots. Family owned and run, in Vermont, since 1978. In a word, local. Our experience is our reputation and we back it up with our lifetime guarantee. If our All-Weather Performance Socks aren't the most comfortable and durable socks you've ever owned, return them for your money back. This over-the-calf sock has an excellent fit. High density cushioning surrounds entire foot and lower leg. Custom shrink-treated Merino wool and ribbing above the ankle ensures a proper fit. Reinforced heel and toe with elastic support around the arch."

Ring-toe construction for a comfortable, invisible seam. Generous sizing: calf stretches 1" more than our traditional sock fit, allowing for a wider range of fit. Contents: 70% Merino Wool, 26% Nylon, 4% Lycra® Spandex

#Tough

Sizes: Med (6-8 ½) Lrg (9-11 ½) XL (12 +)

THE DARN TOUGH STEELY SOCK

The Darn Tough Steely sock has added high density cushioning on the foot base and shin that makes for a supportive feel that people on their feet all day love. A full cushioned toe box supplies added comfort. Fine gauge Merino wool keeps them cool in the summer and warm in the winter. True Seamless construction makes them irresistibly comfortable. Still made in USA. Guaranteed for life. 56% Merino Wool, 41% Nylon 3% Lycra® Spandex

#Steeley
